ACTRON POWER enables customers from wired products to wireless

We offer:

- one step power solutions to our customers from concept through **design** to **mass production** and **after-sales service**
- total solution from **supply chain**, **quality** to **project management**
- full range of battery solutions from **single cells** to **complex battery packs** with BMS in hard case
- full service with sales experts in Europe together with our **high quality** and **cost effective** production partners in China
- **local sourcing** and **project expertise** in China

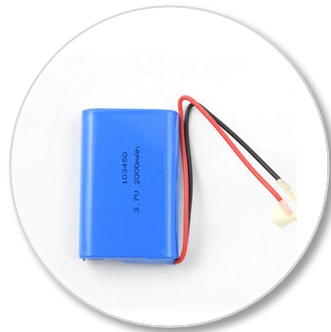

ACTRON POWER means

TRUST OUR POWER

Strong focus and expertise on rechargeable battery products

- Lithium-Ion coin cells
- Lithium-Polymer cells, even **customized** cells
- Lithium-Ion cylindrical cells like 14500, 18650 and 21700
- Lithium-Ion prismatic cells like 103450
- Rechargeable batteries with other technologies like LiFePO4 or NiMH
- Customized battery packs in soft- and hard cases

Other high quality and cost effective products like

CHARGERS

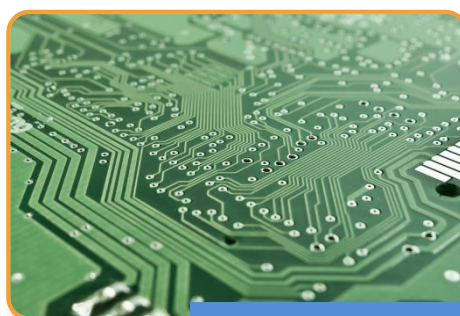

POWER SUPPLIES

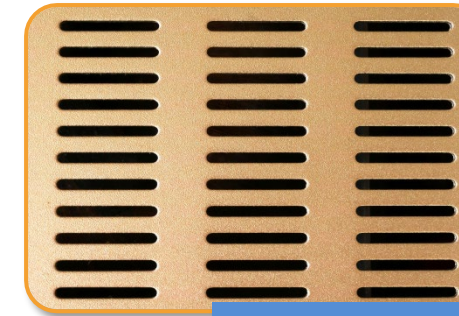

CABLES

ANTENNAS

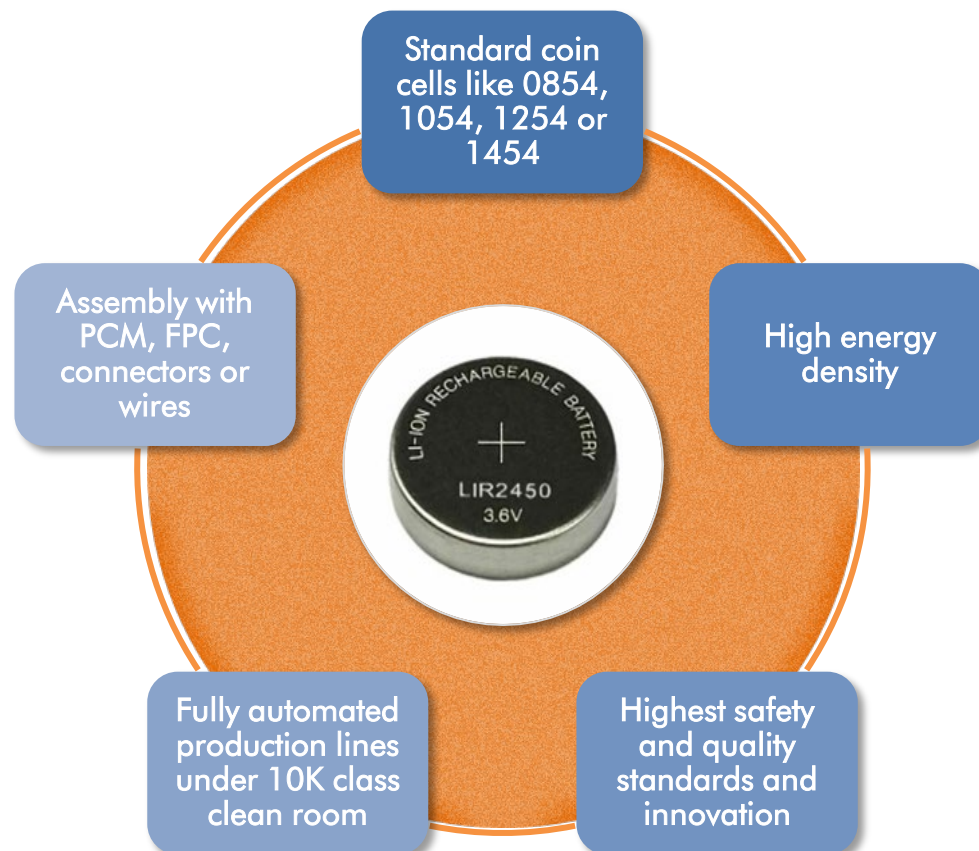

PCB's

MECHANICAL PARTS

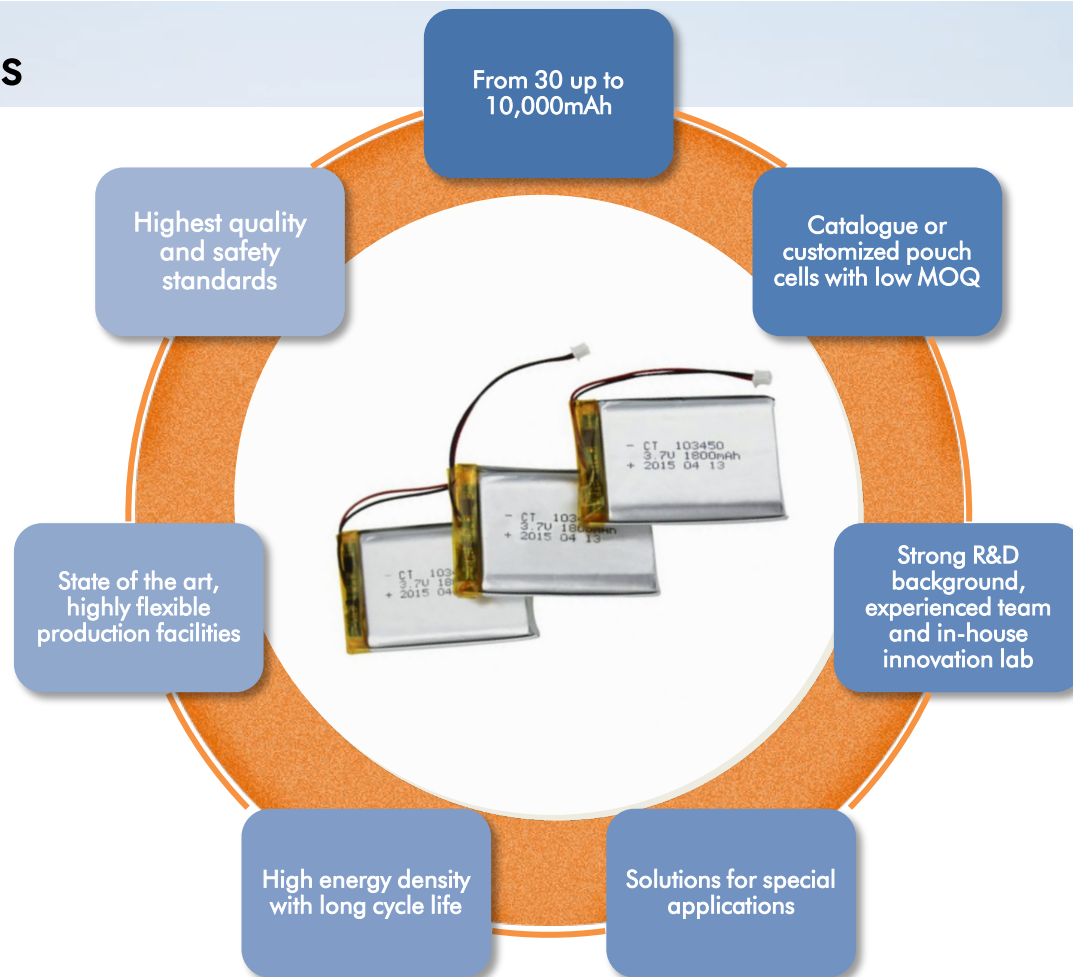

OUR BATTERY PRODUCTS

Rechargeable Lithium-Ion coin cells

OUR BATTERY PRODUCTS

Lithium-Polymer cells

OUR BATTERY PRODUCTS

Other cell types

- **Lithium-Ion cylindrical cells** like 14500, 18650 and 21700 from 1st level Japanese / Korean brand names or local Chinese manufacturers
- **Lithium-Ion prismatic cells** like 103450
- Other battery technologies like **LiFePO4** or **NiMH**
- **Primary battery cells**

OUR BATTERY PRODUCTS

Customized battery packs

- **Easy soft packs** only assembled with FPC, connectors or wires
- **Hard cases** in ultrasonic welding, low pressure molding (LPM) or laser welding
- **Water-proof packs**
- **BMS technology:** cell in serial or / and in parallel, PCM's with charge level indicator and protection
- Very experienced **project management** to fulfill customer requirements
- **High flexibility** with low MOQ
- Strong **R&D team** with mechanical, hardware and software engineers in house
- Very **experienced** with certifications and approbations
- Highest **quality** and **safety** standards
- Innovation lab

Customized Battery Packs

TRUST OUR POWER

TRUST OUR POWER → How we manage it?

Long-term and trustful relationship with our manufacturing partners

Short reaction time

Sales and service contact window in Germany

Excellent local management support onsite at our manufacturing partners

Able to handle certifications by 3rd party testing facilities

Willingness to handle also projects with lower quantities

TRUST OUR POWER
